

V-Manager 3.9

New Features Available only in V-Manager 3.9!

The following features have been added to expand the flexibility and range of options available to V-Manager users:

General Features

- Search by Address is now available.
- New "Quick Receipt" feature is available on the contribution screen to print an individual receipt.
- Apply Payments screen is now moveable; this allows the user to review data from previous screens.
- Check register now limits dates to avoid including post-dated items.
- Deposits may be sorted by user as well as check number and name.
- Mailings 6-12 now display accurately on the Mailing tab.

Educational Features

- Separate bills may now be specified for miscellaneous tuition fees by selecting the option in Global Preferences or for an individual student on the enrollment screen.
- Enrollment screen browse now displays enter date, leave date, payment plan, bill numbers, and miscellaneous tuition bills.
- Enrollment Year is saved in Banquet Year field of tuition bills.
- Batch course entry now orders students by alpha within the selected grade.
